DFID

Technical Information Materials on NARO Improved Technologies

2004

Foreword

The National Agricultural Research Organisation (NARO) was established in Uganda with a mandate to undertake, promote and coordinate research in all aspects of crops, fisheries, forestry and livestock, and to ensure dissemination and application of research results throughout the country. Recent changes in Government policies, as expressed in the Plan for Modernisation of Agriculture, place emphasis upon commercialisation, privatisation, decentralisation and broader participation in the provision of agricultural services, including research. NARO welcomes these challenges and feels they will greatly contribute to the utilisation of technologies and methods which NARO and others have developed to the benefit of large numbers of producers and consumers. This folder contains "Technical Information Materials on Improved Technologies", and a copy of "Improved Technologies by NARO, 1992 – 2002". These materials are intended to contribute to the greater utilisation of improved technologies, by increasing awareness of what is currently available.

One of the core functions of public research institutes in Uganda is to promote agricultural information on the latest improved technologies to agricultural advisers, farmers and other end-users. The materials in this folder present some of the major agricultural technologies developed by NARO in a form easy to understand by lay people. CD#1 provides copies of all these information materials in a searchable form for those who have access to a computer. Advisory Service Providers, who wish to make copies for their Farmer Groups, will find the appropriate computer files for professional printing by commercial printers on CD#2. Please contact Director SAARI for any further assistance.

These documents will help potential users to be aware of some of the improved technologies currently available, and provide information practical information to help undertake these technologies. With this awareness, farmer groups will be better able to demand advisory services from their agricultural advisers, and the advisers will be able to use these materials to help their farmer groups.

More information on other technologies is available from NARO's Research Institutes.

It is my sincere hope that the information provided in these Technical Information Materials on Improved Technologies and a copy of Improved Technologies by NARO, 1992 – 2002 will contribute to the development of a farmer-driven, demand-led agricultural research and advisory services in Uganda.

pp **Dr Lastus K Serunjogi**
Ag. Director SAARI

PART ONE CROPS

CASSAVA

Leaflets: Grow Improved Cassava Varieties, for Food Security and Income Generation by *Diana A. Oyena (NAARI)*

Poster: Grow Improved Cassava Varieties, for Food Security and Income Generation by *Diana A. Oyena (NAARI)*

Leaflets: Biological control of the cassava green mite by *Stella Adumo (Biological Control NaARI)*

Poster: Fight the cassava green mite by *Stella Adumo (Biological Control NAARI)*

Leaflets: Make Bitter Cassava Safe for Consumption by *Steven Tumwesigye (Cassava Programme NAARI)*

Poster: Bitter Cassava Can be Safe Proceesit by *Steven Tumwesigye (Cassava Programme NAARI)*

MAIZE

Leaflet: Maize growers Guide by *Twaha Kalule ((Cereals Programme NAARI)*

Poster: Earn more money: grow *LONGE* hybrid 6H maize by *Twaha Kalule. (Cereals Programme NAARI)*

BEANS

Leaflet: Reduce storage pests of legumes by *Harriet Muyinza (PHP / KARI)*

Poster: Reduce bean storage losses by *Harriet Muyinza (PHP / KARI)*

Leaflet: New bean varieties for South-western Uganda by *Annet Namayanja (Bean NAARI)*

Poster: Stop losses due to bean root rot by *Annet Namayanja (Bean NAARI)*

Leaflet: Grow K 132 bean Variety by *Lucy Omiat (NAADS Service Provider Soroti District – Soroti District Farmers Association)*

Poster: Grow K 132 bean Variety for High Yields by *Lucy Omiat (NAADS Service Provider Soroti District – Soroti District Farmers Association)*

SWEET POTATO

Leaflet: Grow and eat orange-fleshed sweet potatoes by *Charles Niringiye (NAARI)*

Poster: Stay healthy: eat vitamin "A" rich roots by *Charles Niringiye (NAARI)*

Leaflet: Sweet potato virus diseases and their control by *Isaac Mpembe and James Kayongo (NAARI)*

FINGER MILLET

Leaflet: A guide to finger millet production in mid-Northem Uganda agro-ecological zone by *Santo Obol (Ngetta ARDC)*

Poster: Grow SEREMI finger millet varieties by *Santo Obol (Ngetta ARDC)*

SORGHUM

Leaflet: Grow Epuripur Sorghum for Food Security and Household Income by *J Emorut (SAARI)*

GROUNDNUTS

Leaflet: Growing of SERENUT – 2 Groundnut Variety by *Pasca INnalyongo (SAARI)*

Poster: Fight Hunger and Poverty grow SERENUT – 2 by *Pascal nalyongo (SAARI)*

SIMSIM

Leaflet: Grow SESIM II by *Charles Odul (SAARI)*

Poster: Grow SESIM II disease/Pest tolerant, White Seeded, High Yielding, high Income by *Charles Odul (SAARI)*

SUNFLOWER

Leaflet: Growing New Sunflower hybrid PAN 7351 by *Walta Anyanga (SAARI)*

Poster: New Sunflower hybrid PAN 7351 by *Walta Anyanga (SAARI)*

PIGEON PEA

Leaflet: Grow improved pigeon pea varieties by *Okwang D. Amuriat (SAARI)*

Poster: Chase hunger from home: grow new pigeon peas by *Okwang D. Amuriat (SAARI)*

Leaflet: Manage pigeon pea pests for increased yields by *Robert Omaid (SAARI)*

Poster: Save pigeon peas for food by *Robert Omaid (SAARI)*

COTTON

Leaflet: Management of cotton bollworms using predator ants by *Solomon Ogwal (SAARI).*

Poster: Get High Quality Cotton Use Preddator ants to Control Pests by *Solomon Ogwal (SAARI).*

BANANA

Leaflet: Reap more bananas by *Nora Naiboka Odoi (Banana KARI)*

HORTICULTURE

Leaflet: Top Working: Another Way of Improving Mango Orchards by *J.J. Hakiza (KARI)*

Poster: Top Working: Improves Old Mango Orchards by *J.J. Hakiza (KARI)*

Leaflet: Raising Citrus Root Stock by *Jacinta Awero (NAADS Service Provider Soroti District – VAQUA Inter Consult)*

PART TWO FORESTRY

AGROFORESTRY

Leaflet: Raising *calliandra* tree seedlings by *John Okorio (FOORI)*

PLANTATION FORESTRY

Leaflet: Which tree species will grow well on my site? by *Dennis Byabashaija (FORRI)*

Poster: Plant trees for firewood and happy families by *Dennis Byabashaija (FORRI)*

PART THREE LIVESTOCK

CATTLE

Leaflet: Cost effective control of East Coast Fever by *Nsubuga-Mutaka R.C. (Mbarara ARDC)*

Poster: Cost effective control of East Coast Fever by *Nsubuga-Mutaka R.C. (Mbarara ARDC)*

Leaflet: Improved method of preserving Hides and Skins by *Nelson Peter Opio (Apac Local Government)*

Poster: Preserve your Hides and Skins by Salting by *Nelson Peter Opio (Apac Local Government)*

Leaflet: Affordable tick Control for Local Cattle by *Charles Ssekito (LIRI)*

Poster: Target Spraying; Affordable Way to Control Ticks on Local Cattle by *Charles Ssekito (LIRI)*

Leaflet: Advice on Livestock Improvement by *G.W. Opolot (NAADS Service Provider Soroti – WILCON (U) Ltd)*

Leaflet: How to improve cattle production in Natural Grazing Land by *J. K. Beyunga (SAARI)*

Poster: Improve Animal Production Grow Forage Legumes by *J. K. Beyunga (Livestock SAARI)*

Leaflet: importance of Legumes in Crop and Livestock Production by *Agnes Namagembe (Livestock NAARI)*

Poster: Use Legume to Increase Livestock Production by *Agnes Namagembe (Livestock NAARI)*

PART FOUR FISHERIES

CAPTURE FISHERIES

Leaflet: Post Harvest Handling and Processing of Fish by *Moses Ongec (NAADS Service Provider Sorori District)*

Poster: Get More Money Handle and Process Your Fish Properly by *Moses Ongec (NAADS Service Provider Sorori District*

Leaflet: Increasing and Sustaining Fish Production by *Isaac Mukobe (FIRRI Jinja)*

Poster: Aim at Good Fishing by *Jonna Kamanyi (FIRRI Jinja)*

Leaflet: Fish Need Healthy Water by *Rose Mugidde (FIRRI Jinja)*

Poster: Avoid Water Pollution for Improved Fish Production by *Rose Mugidde (FIRRI Jinja)*

Leaflet: Sustainable Exploitation of Mukene on Lake Victoria by *S. B. Wandera (FIRRI Jinja).*

Leaflet: Impact of Lake Victoria Environment Management Project (LVEMP) Mirco Projects by *Irene Lubega (FIRRI Jinja)*

Poster: Micro Projects for Improved Basic Social Services by *Irene Lubega (FIRRI Jinja)*

AQUACULTURE

Leaflet: How to Produce Mirror Carp Fry *(Cyprinus carpio)* by *Owori – Wadunde(FIRRI Kajjansi)*

Leaflet: Suitable Fish for Farming in Uganda by *J.J. Walakira (FIRRI Kajjansi)*

Poster: Fish for Farming by *J.J. Walakira (FIRRI Kajjansi)*

Leaflet: Control of Common Predators of Pond Fish by *Duncan* Katuramu *(FIRRI Kajjansi)*

Leaflet: Supplementary Feeding for Farmer Fish by *J.K. Opio – Apuet (Pallisa Local Government)*

Poster: Supplementary Feeding for Farmer Fish by *J.K. Opio – Apuet (Pallisa Local Government)*

Poster: Fish Farming for Income Generation by *Ananias Begumire (MAAIFI)*

Poster: Fish Farming for Family Nutrition by *Ananias Begumire (MAAIFI)*

PART SEVEN MACHINERY AND EQUIPMENT

Leaflet: For increased Production Use Animal Traction by *Herbert Echaku (VSF)*

Poster: Weeding using oxen by *Herbert Echaku (VSF)*

Leaflet: Motorized Maize Sheller for Commercial Farmers by *Alphose Candia (AEATRI)*

Poster: Use Motorized Maize Sheller Save labour, Time More Money by *Alphose Candia (AEATRI)*

PART EIGHT SOIL MANAGEMENT

Poster: Soil is wealth: look after it by *Drake Mubiru (Soils – KARI)*

Leaflet: Preparing Liquid Animal Manure (Teas) for Improved Soil Fertility by *J.J. Edeku Matilong Youth Ogranisation*

Poster: Animal Liquid Manure (Teas) Lead to Increased production by *J.J. Edeku Matilong Youth Ogranisation*

Leaflet: How to Use Round Up Weed Killer by *Patrick Kuchana (Tororo DATIC)*

Poster: Round Up Weed Killer Answers Farmers Cry by *Patrick Kuchana (Tororo DATIC)*
