

VARIETY: OKILE

- ☐ Maturity period: **140 Days After Germination**
- ☐ Yield: **6,760 Kg/ha (2,700 Kg/acre)**

Special attributes:

- 1) Milled grain: **white**
- 2) Panicle: short (24cm) and compact
- 3) Panicle exertion: well exerted
- 4) High milling percentage: 66.2%

Distinctive Features:

- 1) Leaf curvature at flowering: erect
- 2) Flag leaf: large but short
- 3) Leaf blade: colour dark green
- 4) Awning: Absent

VARIETY: KOMBOKA

- ☐ Maturity period: **118 Days After Germination**
- ☐ Yield: **6,850 Kg/ha (2,740 Kg/acre)**

Special attributes:

- 1) Milled grain: medium slender and translucent
- 2) Panicle: short (24cm) and compact
- 3) Plant height: intermediate

Distinctive Features:

- 1) Aromatic
- 2) Early maturity

VARIETY: AGORO

- ☐ Maturity period: **124 Days After Germination**
- ☐ Yield: **6,060 Kg/ha (2,420 Kg/acre)**

Special attributes:

- 1) Milled grain: white
- 2) Panicle: short (22cm) and compact
- 3) Panicle exertion: well exerted

Distinctive Features:

- 1) Leaf curvature at flowering: erect
- 2) Flag leaf large and long
- 3) Leaf blade colour dark green

VARIETY: NERICA 6

- ☐ Maturity period: **125 Days After Germination**
- ☐ Yield: **6,100 Kg/ha (2,440 Kg/acre)**

Special attributes:

- 1) Milled grain: white
- 2) Panicle: medium (24cm) and compact
- 3) Panicle exertion: well exerted

Distinctive Features:

- 1) Leaf curvature at flowering: semi-erect
- 2) Flag leaf: large but short
- 3) Leaf blade: colour dark green
- 4) Awning: Absent
- 5) Grain color: straw color

VARIETY: WITA 9

- ☐ Maturity period: **145 Days After Germination**
- ☐ Yield: **6,840 Kg/ha (2,740 Kg/acre)**

Special attributes:

- 1) Milled grain: white
- 2) Panicle: short (23cm) and compact
- 3) Panicle exertion: well exerted

Distinctive Features:

- 1) Leaf curvature at flowering: erect
- 2) Flag leaf large and long
- 3) Leaf blade colour dark green
- 4) Awning: Absent
- 5) Leaf sheath color: green with purple lines
